

Emma Chair

Inspired by life
made by enea

Hard-wearing, lightweight, and with perfect stacking capacity, the Ema chair represents the transformation of a classic piece through an innovative combination of engineering and design.

Thanks to advanced technologies, Ema is extremely functional, becoming a great ally for the creation of adaptable, durable, and really stylish spaces.

The solidity of the Ema chairs is a direct consequence of the combination of the curved plastic planes and the patented tubular metal structure. Engineering combined with a refined aesthetic sensibility.

SLEDGE WITH ARMS

Shell

- PP backrest + PP seat.
- PP backrest + upholstered seat.
- PP backrest + upholstered pad.
- Upholstered Backrest + Upholstered Pad.
- Full upholstery.

Sustainability

- Selection of upholstery fabrics made of wool, recycled (and recyclable) fibres, or leather.
- Highly recyclable PP with low additive content, according to EU recommendations for the improvement of plastic recyclability.
- The number of components has been reduced, and their ease of separation has been enhanced, to make the end-of-life phase more manageable. All these components are 100% recyclable or reusable.

Certificates

- Environment management system that meets ISO 14001.
- Indoor Advantage Gold certified (indoor air quality).
- UNE-EN 16319:2015.

Warranty

5 years
